

PROJECT REPORT

Of

CAMPHOR TABLET

PURPOSE OF THE DOCUMENT

This particular pre-feasibility is regarding **Camphor tablet**.

The objective of the pre-feasibility report is primarily to facilitate potential entrepreneurs in project identification for investment and in order to serve his objective; the document covers various aspects of the project concept development, start-up, marketing, finance and management.

[We can modify the project capacity and project cost as per your requirement. We can also prepare project report on any subject as per your requirement.]

1. INTRODUCTION

CAMPHOR TABLET (KAPOOR)

Camphor is a white, crystalline substance with a strong scent and pungent taste. Camphor is a flammable, waxy, and transparent with a pleasant odor, produced from distillation of wood and bark of the camphor tree which is predominantly found in Asia. In addition to its natural origin, camphor can also be produced synthetically from turpentine oil. Globally, rising demand for camphor ointments used for treating chest congestion, growth in food industry owing to growing population, and increasing demand from the pharmaceutical industry are the prime growth drivers of camphor market. In addition, the camphor of turpentine oil derived from rosine can be synthesized. Properties of sublimation give its various uses.

2. MARKET POTENTIAL:

India is a vast country and the Indian people follow various religions, speak different languages and follow different customs and traditions. In spite of

this diversity, one thing is common among all Indians is they are all deeply religious and practice their religious activities on daily basis. So depending upon their belief, practice method and convenience, almost all the people use any one or two from agarbatti(incense sticks), candles or Kapoor(camphor tablets). This itself speaks volumes of the paramount importance Agarbatti, candles and Kapoor has. Besides, they are also used as air- freshener, and illumination.

In addition, on-going research and development activities to develop the new application scope for camphor and rising population in emerging economies such as China, India and others will create new opportunities for camphor market.

Camphor Tablets market was valued at US\$ 93.9 Mn in 2016 and is expected to reach US\$ 145.6 Mn by 2022, growing at a CAGR of 7.6% during the forecast period 2016-2022. Food is also expected to fuel demand for growth of camphor tablets during the forecast period from 2016 to 2022.

3. PRODUCT DESCRIPTION

3.1 PRODUCT BENEFITS & USES

- Camphor tablets are used for wide range of medical properties as it helps reduce pain and swelling, helps relax worn out muscles and reduces congestion and cough.
- They are used in manufacturing various medicines. Growing demand from the pharmaceutical industry is therefore the major factor driving the growth of camphor tablets in the market.
- High consumption of camphor tablets for religious rituals in India is another factor boosting market growth for camphor tablets. Camphor

is believed to be holy and sacred stuff which is offered to god for thanks giving.

- Camphor tablets are also used in the agriculture to keep away insects and moths. It is used as repellent in agriculture and even for household activities to keep away reptiles and insects. Therefore steady demand is observed for camphor tablets from the agriculture industry.
- Camphor tablets are also used in skin care products as it helps reduce acne and pimples. Therefore, chemical industry makes use of camphor in many skin care products and hair care products due to the beneficial properties of camphor.
- Europe consumes camphor for preparation of almost all sweet dishes. Camphor is the essential ingredient in the cookbooks of Arabians. In India, camphor is used as an essence in some of the sweet dishes.

3.2 RAW MATERIAL

- Camphor powder and hexamine are the basic raw material for the manufacturing of camphor tablet.

S.N.	Particulars	Price
1	Camphor Powder	Rs. 800-1000 Per KG
2	Hexamine	Rs. 130-180 Per KG
3	Sodium	Rs. 20 -30
4	Wax	Rs. 130-150

3.3 MANUFACTURING PROCESS

Camphor Tablet Production Process

All raw material are procured form vendor and stored in raw material warehouse as per production requirement. The raw material are brought to plant and camphor powder & hexamine are mixed manually in proportionate quantity. Raw material is fed to the respective hopper utilizing appropriate material handling equipment.

With the help of specific die attached in camphor tablet machine, camphor tablets are manufactured.

After manufacturing of camphor tablet with the help of packaging machine, final packaging of product is completed.

Dispatch of goods & sale of product in market.

4. PROJECT COMPONENTS

4.1 Land

Land required 500 square feet

Approximate rent for the same is Rs.10,000 per month.

4.2 Plant & Machinery

Manufacturing section

3 types of machines are available according to the Die

S.N.	Item Description	Rate
1	5 Die Kapoor making machine (6-8 KG Per hour production capacity)	Rs. 60,000
2	10-12 Die Kapoor making machine	Rs. 90,000

	(12-15 KG Per hour production capacity)	
3	20 Die Kapoor making machine (20-25 KG Per hour production capacity)	Rs. 1,45,000

Packaging Section

2 types of packaging machines are available

S.N.	Item Description	Rate
1	Manual tablet packaging machine	22,000
2	Automatic tablet packaging machine	1,55,000

Note:

- Cost of the machine is exclusive of GST
- This project report is prepared based upon 20 die Kapoor making machine with automatic tablet packaging machine.
- Cost of Plant & machinery is $(1,45,000+1,55,000)=3,00,000$ +GST @ 18%

4.3 Misc. Assets

S.N.	Item Description	Rate
1	Genset -5 KVA	40,000
2	Furniture and equipment's	20,000

4.4 Power Requirement

The borrower shall require power load of 3 KVA which shall be applied with Power Corporation. However, for standby power arrangement the borrower shall also purchase DG Set.

4.5 Manpower Requirement

2-3 Manpower are required for the camphor tablet manufacturing unit.

Includes:

1 Skilled Labour

1 Unskilled Labour

1 Helper

5. FINANCIALS

5.1 Cost of Project

FINANCIAL ASSISTANCE REQUIRED				
Term Loan of Rs. 3.73 lakh and Working Capital limit of Rs. 3.00 Lacs
